
A Step-By-Step Guide to getting SRP-Verified

A Step-By-Step Guide to getting SRP-Verified

1. Download the relevant SRP Standard documents from our [Resources page](#).
2. Carry out a self-assessment using the [SRP checklist¹](#) for farm and [SRP CoC Checklist²](#) and correct any points you don't comply with. An SRP Authorized Trainer for the SRP Standard, who is a trained and qualified expert, can provide you with valuable assistance during this self-assessment and your inspection and/or audit preparations. You can choose from the list of registered SRP Authorized Trainers available [here](#). Please note that to ensure separation of function between training and audit, VBs cannot provide training or technical assistance during this preparatory phase. this preparatory phase.
3. Once you consider your producers / producer group ready for verification, compare offers from the SRP-approved Verification Body (VB) you want to work with in your country of operation from the list available at the GLOBALG.A.P. website https://www.globalgap.org/uk_en/for-producers/sustainable-rice-platform/ .
4. Register with the VB of your choice and receive your SRP Global Farm Number (GFN) which is assigned to you as individual producer or producer group.
5. Arrange an appointment with your VB. An inspector/auditor will then conduct the first on-site inspection/audit.
6. Once you successfully comply with the SRP Standard's requirements, you will receive an SRP Verification Statement from the VB, specifying the relevant version and scope. The Verification Statement is valid for 1 year for SRP farm level standard and 3 years for CoC Standard.

Grievances and Complaints

If you disagree with any decision made by your Verification Body, please follow this link to [SRP Grievance and Dispute Resolution Policy](#)
