SRP only grants the respective producer, producer group or supply chain partner ("Licensee") the non-transferable and non-sublicensable right to use the SRP Claims and/or SRP Logo and/or Label in accordance with the relevant terms and provisions of the SRP Assurance Scheme.

The rights granted to the Licensee are:

1. subject to (i) verification of the Licensee’s compliance under the provisions of the SRP Assurance Scheme (including Chain of Custody requirements) and (ii) Licensee’s SRP membership.
2. strictly limited to third-party verification, the specific form of usage is defined in the SRP Verification Claims and Corporate Value Statements.

SRP is entitled to revoke the rights granted at any time in written form if the Licensee’s use of the granted rights (i) violates legal requirements or rights of third-parties or (ii) is likely to have a negative impact on the reputation of SRP or the SRP Claims and/or Logos/Labels.

The Licensee is responsible for ensuring that Licensee’s use of the SRP Claims, Logo or Label does not violate applicable laws and/or further applicable regulations. SRP assumes no responsibility in this respect.

2. SRP Organizational Logo

Logo Variants, Size and Clear Space

Primary (Full Color)

The SRP Organizational Logo should always be used against a white background. If any other background colors are used for unavoidable reasons, then enough contrast between the logo and background should be maintained to achieve clear visibility and legibility.

Alternatives (Black and White)

The SRP Organizational Logo can appear in black/white only in exceptional cases (e.g. when printing a whole document in grayscale or if the color scheme of a specific campaign dictates such use). If the logo appears in white, enough contrast should be maintained.

Minimum Size - 12mm / 45 pixels

Measured across from the left edge of the logo frame to the right edge.

Clear Space

To protect the logo, we recommend a minimum clearance area based on the width of the frame. The logos should never be positioned closer than this to another logo or edge.

3. SRP-Verified Label

About the SRP-Verified Label

The SRP-Verified Label represents the integrity of claims to sustainable best practices according to the SRP Standard, as verified through the SRP Assurance Scheme. The SRP-Verified Label symbolizes a seal of approval, illustrated through the interpretation of a rice plant as a check mark.
3. SRP-Verified Label

Label Use Policy

Who can use the SRP-Verified Label?

Only eligible participants in the SRP Assurance Scheme under third-party verification are authorized to use the SRP-Verified Label.

In what ways can the SRP-Verified Label be used?

The SRP-Verified Label can be used for on-pack communication. Off-pack communication is only allowed to promote an SRP-Verified product.

On-Pack Use

The SRP-Verified Label is used for on-pack communications, such as:

- Retail rice packs, and
- Bulk rice sacks or boxes.

Use of the SRP-Verified Label on-pack must be supported with a Verification Claim as outlined in Section 4 “SRP Verification Claims”.

Off-Pack Use

The SRP-Verified Label can be used off-pack on marketing materials that promote an SRP-Verified product, e.g. product flyers, product page in online-shops, etc. In this case an image of the SRP-Verified product (e.g. rice pack or rice box) needs to be part the marketing collateral.

For on-pack and off-pack use: Proposed label layouts and claim language must be approved by SRP before publishing or printing. Please send proposed label layouts and claims for approval to info@sustainablerice.org. Submissions are treated in strict confidence by the SRP Secretariat and materials are not externally shared.

In order to facilitate an impartial, transparent and timely approval, the following process has been defined:

- Applicant (typically a retailer or brand owner) submits label design and claims to the SRP Secretariat.
- The SRP Secretariat (S&A and Communication unit) conducts a label assessment using a template covering all requirements stipulated in the SRP Brand Manual & Claim.
- The SRP Secretariat completes the SRP label assessment with notes to address each requirement. The SRP Secretariat either contacts relevant parties to complete the label assessment or may request additional information from the applicant.
- The SRP Secretariat sends the SRP label assessment result with conclusion and notes. Applicant can start using the label and claim.
- The SRP Secretariat notifies the applicant if the label design and claims are approved or rejected within 5 days of submitting all necessary clarifications. If the result is rejection, the SRP Secretariat will provide reasons and recommendations, giving the applicant 30 days to make corrections.
- In the case of rejection, applicant has the right not to follow the recommendation and appeal within 14 days of notification, in which SRP Secretariat will forward the case for review by the SRP Board at its next meeting. In such case, Board’s decision shall be final.
3. SRP-Verified Label

In what ways can the SRP-Verified Label NOT be used?

Members and participating organizations who did not qualify for third-party verification are not authorized to use the SRP-Verified Label in any communications media.

The SRP-Verified Label cannot be used for Mass Balance products.

Don’t display the SRP-Verified Label on websites, reports or other materials to identify your company or organization as an SRP member or identify collaboration with SRP. For such use, please refer to the SRP Organizational Logo use policy.
